NO. 92

One-Arm Jim's Case.
The Winnemucca Silver State says: M. S. Bonfield, who was appointed counsel for One-Arm Jim, the Indian now under sentence of death in the county jail for the murder of Andrew Kinnegar at Willow Creek, has filed a notice of appeal with the Clerk of the District Court. The case, as is the custom in all cases of the kind, will now go to the Supreme Court, and a stay of execution will be issued by that tribunal, so that the sentence will not be executed on the 21st instant, the time fixed by warrant for Jim's execution. A petition has been sent to the Board of Pardons to commute Jim's sentence to imprisonment for life, and if the prayer of that petition is granted it is not likely that the case will be appealed to the Supreme court.

What Time Merit Will Do.
The unprecedented sale of "Bochee's German Syrup" within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of coughs, colds and the severest lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a cough and leave the disease still in the system, but on the contrary, removes the cause of the trouble, heals the parts affected and leaves the system in a healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctors' bills and a long spell of serious illness. It will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cents, each bottle. nov29

A Indian Killed.
The Carson Union of the 6th instant says: Johnny Shay, a Washoe half-breed, last night shot and killed another Washoe Indian near the railroad track, opposite Robinson's ranch west of Carson. Shay was drunk and chased two Indians, but one escaped without being hurt. Coroner Friend is investigating the matter to-day.
The murdered Indian is the same one who killed a Plute in Chinatown two years ago, and over which a big council was held in Carson between the Plutes and Washoes at which Chief Naches presided. Shay has escaped to the mountains and the officers are after him.

How a Hawk Attacked a Man.
Last week an immense owl hawk flew into the yard of Robert Brodie, of Tabernacle Township, and while struggling with a fowl on the ground was seized by the wings by Mr. Brodie, when the hawk let go the prey and fastened its talons into his legs so that he could not move. The hawk had Mr. Brodie by the legs, but neither could any more. Assistance came in answer to his cries in the person of his wife, who chopped off the hawk's head with a hatchet, and then released her husband from an embrace that was anything but tender and loving. (Columbus, S.C.) Register.

Unnecessary Misery.
Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. Twenty-five cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

The Two Governors.
Gov. E. R. Stevenson of Idaho is a brother of Gov. C. C. Stevenson of Nevada. Gov. Stevenson of Idaho is not reconciled to his brother getting any of his ground. He says in his message to the legislature that if something is not done, the northern portion of Idaho known as the Pan Handle will be cut off and attached to Washington, and "if it is, our hungry neighbors on the South (Nevada) will try to annex the rest."

Notice!
Manning & Jacques have been commissioned by the Reno Gas Co., as a competent firm to do their gas-fitting and the company would recommend parties having work of the above character to do, to employ only the best workmen, thereby saving much annoyance and expense. WM. THOMPSON, Supt. of Reno Gas Co. dec14

A Growing City.
The Minneapolis Tribune issues an immense New Year's number of 40 pages, full of illustrations. The figures show that the wonderful new city is steadily growing. Its present population is 165,000. Last year Minneapolis received 35,000,000 bushels of wheat, and made nearly 6,000,000 barrels of flour. The flour trade is the chief source of the city's prosperity.

Geo. Andrews, overseer of the Lowell Carpet Corporation, was for over 20 years, before his removal to Lowell, afflicted with salt rheum in its worst form. His migrations actually covered more than half the surface of his body and limbs. He was entirely cured by Ayer's Cherry-Peppar. See certificate in Ayer's Almanac for 1883.

Reno Prices.
Fifty dollars; first five balls if makes a keno on first keno; \$25 for five keno in succession on one card; \$30 for first four balls called if it makes a keno; \$5 for three keno in succession on one card. All prizes paid in cash. dec21

It is wise to provide against emergency that are liable to arise in every family. A cold may be a dangerous thing, or not, depending upon the means at hand to combat it. In sudden attacks of cold, croup, asthma, etc., Ayer's Cherry-Peppar will prove the quickest and most effective cure, and your best friend.

NOT VERY DIGNIFIED.

The attitude of some of the members of the Legislature is not very dignified, to say the least. They were elected to serve the State, and the whole State, as law-makers, and each took a solemn oath to do that duty to the best of his ability. The proposition to try some sort of a elch game on any one county or any part of the State is unpatriotic, unreasonable and in direct violation of the oath of office. A part of the voters of Washoe county may have listened to bad advisers, but for anyone to attempt to wreak a petty revenge on her because of her political affiliations, is tyrannical and wicked. If anyone undertakes it they simply dig their own political graves, for the people of this State will not permit it. The Legislature will not make a spectacle of itself by trying to divide Washoe county or sacrifice State property located here, and if it did, we have a just and honest Governor who will have something to say on the subject. People who sold about us better look out for their own towns. Reno will grow and flourish, no matter who tries to down it, and even the politicians and legislators if they were unanimous against it, could only give it a temporary set-back.

EDITORIAL NOTES

An Ottawa special says that the fishery troubles and recent elections have tended to bring about a Cabinet break-up, and that Hon. John Castigan and Hon. M. Foster will probably resign. It is settled that unless the United States make some overtures looking toward a settlement of the fisheries dispute the Canadian Government will go back to the old system of licensing foreign fishing vessels. A license will be charged as formerly, upon the tonnage of vessels.

The Washington Star last night says: It is probable that the question as to whether revenue matters are to be taken up in the House this session will be settled within two or three days. A meeting of Mr. Randall's friends was held at his residence last night. If he can develop strength enough to justify, he will move to repeal the tax on tobacco, alcohol used in the arts and add certain articles to the free list.

At the last Legislature a law was passed changing the election of Warden to the second Wednesday of the session. This will make the Senator on Tuesday next and the Warden Wednesday, after which it is hoped the Legislature will be ready for some good law-making.

Senatorial Caucuses.

ST. PAUL, January 7. Ninety-four members of the Legislature attended the Republican joint caucus on United States Senator last night. Just before taking the first ballot a letter from Senator McMillan was read withdrawing from the contest. On the first ballot ex-Governor Cushman K. Davis received 93 votes and Gordon E. Cole one.

LANSING, Mich., January 7. The Republican Legislative caucus last night nominated Francis B. Stockbridge of Kalamazoo for United States Senator on the 10th ballot.

ST. LOUIS, January 7. The Democratic members of the State Legislature held a caucus last night at Jefferson City and nominated M. Cockrill for re-election to the United States Senate.

INDIANAPOLIS, January 7. Congressman W. S. Holman reached this city last night and made a formal announcement of his intention to enter the Democratic Senatorial contest. It is understood that neither party will caucus for Senator until the Lieutenant Governorship question is settled. The caucus will probably not be held before Thursday night.

The Cattle Interests.

DENVER, Col., January 7. At a meeting of the New Mexico Cattle and Horse Growers Association just closed at Santa Fe, resolutions were adopted commending the cattle-men's yards in West St. Louis and opposing the Miller Commission Bill, but favoring a bureau of animal industry with increased powers. Colonel J. W. Dwyer, president of the association, was selected to go to Washington in the interest of the association. A committee of the Colorado Cattle Growers Association having in charge the entertainment of the cattle-men, attending the second annual meeting of the International Range Association on February 8th, report that half rates will be made on all roads entering Denver.

Some Cold Weather.

CHICAGO, January 7. Mercury fell steadily in this city until 4 this morning, when the thermometer registered 14 degrees below zero, and at 6 had risen to eight degrees below, and has since remained stationary, and according to the signal service report, it will continue to do so for the next 24 hours. At St. Paul the thermometer stood at 32 degrees below, while the extreme Northern Minnesota and Canadian stations had not sent in any reports. At Davenport, Iowa, the thermometer registered 20 degrees below.

American Soldiers Not Wanted.

ATLANTA, January 7. It has just been learned that the British Government refuses to allow the Gate city guards to enter England. It is supposed this action was taken because Captain J. C. Burke is an Irishman. The Guard proposed to make the tour of the principal cities of the continent in full uniform and bearing arms. By special invitation, King Leopold was to inspect them and be present at several of their public maneuvers.

Two Children Burned to Death.

INDIANAPOLIS, January 7. A Rensselaer special reports that during the absence of Mrs. Charles Burns from home yesterday afternoon, her young daughter took coals of fire from the stove and placed them in a cradle in which Mrs. Burns' babe was sleeping. The babe was burned to death and the eldest child fatally injured. The mother returned in time to save the house.

A New Railroad.

LITTLE ROCK, January 7. The organization of the Louisiana, Arkansas & Missouri Railroad Co., was effected yesterday, with A. W. Soper of New York as President and Logan H. Roots of Little Rock, Vice President. The capital stock is \$2,500,000. The road is to begin at Brinkley, Ark., on the Memphis and Little Rock Railroad and run to the Louisiana line, 260 miles.

Indiana Legislation.

INDIANAPOLIS, January 7. The two houses of the Legislature met and organized yesterday morning

at 10 o'clock. The interest centered in the Senate, at which there was a large crowd. Green Smith appeared and took the Chair, with Auditor of State Rice acting as Clerk. The Republicans endeavored to protest, but they were not permitted to be heard, and without the Republicans voting at all, but being counted as present, the Democrat's caucus nominees were elected and prepared rules were adopted that gave the majority all the power. In the House, the Republicans elected Hon. W. G. Sayre Speaker, but beyond a formal organization, no business was transacted.

A Severe Loss by Fire.

FARGO, Dak., January 7. This morning the Northern Pacific machine, boiler and blacksmith shops were burned. Three locomotives and a number of valuable machines were consumed. The loss is estimated at from \$150,000 to \$200,000.

FOREIGN DISPATCHES

Out of Employment.

LONDON, January 7. West End had another labor scene to-day. Crowds of unemployed workmen assembled in front of the offices of the Local Government Board and demanded relief. Ritchie, President of the Board, received a deputation from the crowd outside, but said he could promise nothing. When the crowd were apprised of this, they hooted the Government and marched to Trafalgar Square, where an indignation meeting was held, and resolutions adopted protesting against the apathy of the Government. Many of the residents and shop keepers in the vicinity of Trafalgar Square, fearing an outbreak of new Socialist riots, closed their shutters and barred their doors, but the meeting dispersed quietly.

Another Divorce Suit.

EDINBURG, January 7. The Marquis of Queensbury is being sued for a divorce. He has not lived with his wife for 12 years. Shortly after they began to live apart, the Marquis admitted another woman into his house, who became a regular inmate of the establishment. His connection with the woman is made the basis for the suit. Neither the woman nor the Marquis will deny the charge of adultery, which the Marchioness makes against her husband. The case is to be tried in Edinburgh, because Scotch law grants the wife a divorce for adultery alone.

A Typhoid Epidemic.

PARIS, January 7. An epidemic of typhoid fever is raging at Clermont and Ferrand. Eighteen hundred persons out of a population of 40,000, have been attacked. It is supposed the epidemic was started by impure water.

General Boulanger, Minister of War, has ordered 200,000 new shells.

British Politics.

LONDON, January 7. It is expected that Lord Salisbury will make no further effort to complete his Cabinet with whips, but will fill the vacant offices with conservatives. The conservative council of Liverpool has invited Mr. Goschen to contest the vacant Parliamentary seat in that city, and it is thought that he will consent.

Willing to Modify.

LONDON, January 7. The Standard says Gladstone is prepared to modify his Home Rule scheme, with the view of conciliating the dissident Liberals. According to the Standard, he is willing to confine the powers of the proposed Irish legislative body to questions exclusively Irish.

Cholera Declining.

VALPARAISO, January 7. Telegrams from Menodosa, Argentine Republic, dated January 4, say that there are four cases of cholera in the city and 19 in the hospital. The hospital patients are persons from the country. The epidemic continues to decline.

A Vatican Debate.

ROME, January 7. Bishop Patterson of the Roman Catholic Church, Diocese of Columbus, Ohio, has arrived here. The Vatican is debating whether the Knights of Labor of America is a proper organization for Catholics to join.

Four Hoodlums Hanged.

SYDNEY, N. S. W., January 7. Four of the brutes recently condemned for an outrageous assault upon a servant girl were hanged yesterday. Two others who were to be executed were reprieved.

Escaped Prisoners.

Legislative Proceedings.

CARSON, January 7. [Special to the GAZETTE] Senator Harris' Resolutions instructing the Governor to memorialize Congress by telegraph the wish of the Legislature on the Inter-state Commerce bill, was tabled on motion of

Pike (Dem) in the Assembly, and will require a majority vote for a reconsideration.

Clapp's bill granting the privilege for the construction of a railroad in Lincoln county was laid on the table with the understanding that when printed, it is to be lifted.

The Democratic caucus on the selection of a candidate for U. S. Senator yesterday, stood seven for Cassidy and seven for MacMillan. The Washoe delegation were for the latter. It is now understood that Cassidy's name will be presented. There is considerable comment over the action of the Washoe delegation, as it was understood that they ought to be friendly to Cassidy.

Warden of the State prison, Bell, will be beyond doubt succeeded, when the result of the Republican caucus is known, by Frank McCullough, and P. S. Corbett will be his deputy. The Legislature adjourned till Monday.

A Business Failure.

SAN FRANCISCO, January 7. The wholesale druggist firm of J. Greensfelder & Co. at No. 537 Market street, have assigned for the benefit of their creditors. The firm carried a stock estimated at over \$100,000. The failure was due to a reduction in prices in goods dealt in by the firm.

A correspondent of the San Francisco Examiner, who signs the name of August Howitz, claims that the street-car explosions were the work of a secret organization, which is in no way connected with the Carmen's Association.

AT THE CAPITAL.

Washoe Getting Some Pretty Hard Rains.

CARSON, January 6.

The Capital is having politics to its heart's content at present. The Legislature has hardly taken a good hoi i and probably will not until after the Senator and Warden are elected. The Republican party having been pledged to the amendment of the jury law by local and State platforms, several bills relating thereto have already been introduced.

It now looks as if some intelligent action will be taken relative to the storing of water and the encouragement of the sinking of artesian wells.

A slight palor is on the cheeks of Carsonites, occasioned by the fact that there is serious fear that the present administration is going to let the one hundred thousand dollar. Government building on which they have so long set their hearts, end with the present high-board fence which surrounds the place where they had fancied it would soon be reared.

A serious rumor is afloat that the mint, which was converted into an assay office for "political purposes only," is to be disemboweled and the various apartments are to be fitted up to serve the ends intended of the new structure. The story is that the order has been received to wind up the business of the mint and close it on April 1st. If this does happen it will be final.

There is an open effort being made here to cut Washoe county right and left in all the business of the session. Mollie Roff, who by the way is making a beautiful journal, had to hail from Lander. Miss Clinton disguised herself in the same way, while C. M. Fassett was credited to Eureka, and trembled when he heard that an obscure Washoe politician claimed to be his friend. Washoe will lose the Warden'ship from present indications, and a number of bomb shells are being prepared for throwing. Some of the more industrious have a bill ready to advertise for sale at auction, the prison walls at Reno and the ground on which they stand, and another to cut off the south end of Washoe county and annex it to Ormsby. There is not much probability of any such bills succeeding, but it seems hardly probable now that Washoe can expect any favors.

MAX.

The Only Way to Conquer Dyspepsia.

It is perfectly preposterous to introduce poison and other artificial solvents into the stomach, in the expectation that they will assist digestion by acting on the food itself. They will not. Nor is it possible thus to overcome dyspepsia. The only way to conquer that disorder, and prevent the numerous diseases and disabilities which it assuredly provokes, is to renew the activity of gastric action by strengthening the stomach. Hostetter's stomach Bitters eradicates the most inveterate forms of indigestion by restoring vitality to the alimentary organs, and those which are tributary to them. The liver, the bowels, the kidneys and the nerves, no less than the stomach, experience the invigorating effects of that standard tonic, which possesses alternative properties that greatly enhance its beneficial influence, and give a permanence to its effects which they would not otherwise possess.

To-night's Play.

Last evening's Carson Tribune says: There was an excellent audience in attendance at the Opera House last evening, to witness the production of "O. The Rio Grande" by the Lamb-Jordan-Price Company. The piece is one of the best of the character ever produced before a Carson audience. It abounds with many thrilling and, not unusual, pictures of frontier life. The best character is that of "Daniel Webster Byall," the New England land agent, personated by Edward Lamb. His quaint New England dialect and mannerisms kept the audience in a continuous roar of laughter. It is alone worth the price of admission to see Lamb. He is the equal of Denman Thompson. On the part of the ladies, Miss Josephine Laurens bore off the laurels as Priscilla Muffin, a maid of 40 winters who is clean gone on Byall. Mark Price as the outcast was excellent, in fact all did well, and pleased the audience.

To appear at the Nevada Theater this evening. Tickets and reserved seats at Thurston's news depot.

An Unusual Occurrence.

The Salem Statesman says: The Oregon State officials were thrown into a bewildered state of amazement recently when the Secretary of State received a bag containing \$529 50 from the County Court of Josephine county. The Legislature at its last session made an appropriation for a bridge across the river at Grant's Pass. The bridge and another was built out of the appropriation, and the above was the balance left, which was sent back to be placed in the State Treasury.

NOT A SUCCESS.

The Carson Mint Fails as a Bullion Deposit.

A GAZETTE reporter yesterday called at the mint and inquired as to its success in gathering in bullion, and was informed that in the two months that it has been open as an assay office, it has only received silver enough to run a few hours if they had been running as a mint. There is now in the vault \$33,170 in gold and 26,319 ounces of silver. The department allows Superintendent Garrard to pay 101 for silver but it must be paid in fine silver bars while he can pay out gold coin for gold bullion. He has permission to buy 50,000 ounces of silver but he does not seem likely to reach that limit in a long while. The rates for treating bullion are the same as at the other mints, but there seems to be a combination of circumstances which works against Carson and causes all the bullion of the Comstock to be carried by her mint to San Francisco. One thing is the express charges amount to about \$3,000 a month and the company hates to give that up. They therefore charge as much from Virginia to Carson as to San Francisco, and as much from Carson to San Francisco as from Virginia. Mackey's mines ship bullion to San Francisco and there get money from the water company, Mallon, Ford and other merchants to pay their wages and bills, giving checks on San Francisco, so they don't have to ship money up. Another reason why they do not stop, is because it is an object for the Nevada Bank and the Bank of California to handle the bullion. It is not necessary to coin it either, because it is all going to China now and fine bars are worth more than dollars. The probabilities are, therefore, that the mint will soon be closed forever and the building sold or used for some other purpose.

Notice!

Manning & Jacques have been appointed plumbers for the Reno Water Co. All other persons are warned against tampering with the mains or making connections thereto. Those having plumbing to do can only protect themselves by employing the best workman, and we recommend the above firm to any who may require such services. A. A. EVANS, Supt. Reno Water Co.

Prevents Flooding.

Col. Lindsey has a photograph of a water-gate designed by A. D. Foote of Boise City which effectually does away with the ebb and flow of water in any ditch in which it is used. It would be of great value to owners of ditches from the Truckee which rise and fall twice a day with the floods from Lake Tahoe. It is simply a long box beside the ditch with a side gate letting water into it and a front gate to let the main ditch run through. The box then has an outlet large enough to carry off the amount of water needed in the branch ditch while the side next to the main ditch is raised six inches higher than the outlet so that no matter how much water flows into the box the stream will only be subject to a six inch pressure and all the rest will flow back into the main ditch. Col. Lindsey is getting a lot of copies of the invention and as it is not patented any one can use it.
